

STATE OF TENNESSEE BUREAU OF TENNCARE DEPARTMENT OF FINANCE AND ADMINISTRATION 310 GREAT CIRCLE ROAD NASHVILLE, TENNESSEE

This notice is to inform TennCare pharmacy providers of important changes to the pharmacy program. Please forward or copy this information to any providers that may be affected by these changes.

NEW TENNCARE PHARMACY NOTICE FORMS

The purpose of this correspondence is to provide you with the newly revised notice that must be used immediately upon receipt. Please discard any old notices that do not have the revision date of "09Aug06" as denoted in the lower left-hand corner of the notice, and replace with the new notice. Prior to September 15, 2006, participating pharmacy providers will be sent a packet containing a pad of the new Prior Authorization Required Forms (PARF). Please begin utilizing the new PARF forms as soon as you receive them. The new notice may also be downloaded from the TennCare/First Health website at: https://tennessee.fhsc.com/Downloads/provider/PARF.pdf Requests for additional notice forms can be faxed to 615-741-0078. In addition to new PARF forms, pharmacy providers will be sent 4 pharmacy posters (2 of the same posters in English and Spanish). Please discard the yellow and purple pharmacy posters upon receipt of the new posters.

The procedures regarding provision of notice and the handling of the 3-day supply are <u>unchanged</u>. TennCare enrollees are not entitled to a 3-day supply of medication (interim supply) every time a prescription is blocked at the point of sale due to a PDL or DUR edit. Instead, a 3-day supply will **only** be dispensed if the pharmacist determines that the situation represents an emergency (emergency supply). In addition, no enrollee will be permitted to return to the pharmacy and receive the remainder of the supply unless the prescriber has obtained prior authorization. Pharmacists must still attempt to contact the prescriber if a prescription is denied at POS for rejections such as: PA required (but not sought), therapeutic duplication, non-preferred medication, quantity limits, etc. If the pharmacist has reached the prescriber and resolved the matter, the patient will not receive the new Prior Authorization Required form. In that circumstance, the pharmacist will either be:

- 1. Dispensing a drug to the enrollee (because the prescriber obtained a PA or made a therapy change to a drug for which no PA was required), or
- 2. Informing the enrollee that the prescriber has withdrawn the original medication order (e.g. after the prescriber found out that the prescription was a therapeutic duplication, the prescriber canceled the prescription)

If the pharmacist is unsuccessful in reaching the prescriber and resolving the matter, the pharmacist must provide the enrollee with the **NEW** Prior Authorization Required form (attached). If the pharmacist does reach the prescriber and he/she indicated that he/she would seek PA (but it hasn't been obtained yet), the pharmacist should still give the enrollee the Prior Authorization Required form, but the pharmacist can also suggest that, before attempting to contact their doctor, the enrollee try returning or contacting the drug store later to see if they can pick up their drug because the PA has been obtained.

Please download the complete emergency supply instructions at https://tennessee.fhsc.com/Downloads/provider/TNRx_Emergency_Supply_Powerpoint.pdf.

Prior Authorization Required Form (Old)

DS 6 NPA 1 Do you need help? Call 1-800-639-9156 for free _____can't get this drug: Drug Name WHY? Your doctor must get TennCare's OK <u>before</u> TennCare will pay for this medicine (It's called a "prior authorization" or "PA.") What can you do? FIRST, call your doctor. Your drug store will try to call your doctor. BUT, you still need to call your doctor too. Tell your doctor you couldn't get your medicine. Ask if you still need this drug or one like it. If your doctor says you do, tell him he has to get an OK from TennCare. Ask your doctor to do one of these things right away: Call First Health to get an OK for this medicine
OR, change your prescription to a drug that doesn't need an OK. What if your doctor gets an OK or changes your prescription? Then, you'll get the drug your doctor prescribed. You'll have to go back to the drug store to pick it up. What if your doctor asks for an OK and we say no? Then, we'll send you a letter that says why we turned you down. It will also say how to appeal if you think we made a mistake What if your doctor DOESN'T call for an OK or change your prescription? Then, you can call 1-800-639-9156 When you call, please have these 3 things: This page with the name of the drug that needs an OK, AND Your doctor's name and phone number, AND
The name and phone number of your drug store. REMEMBER: Call your doctor FIRST. That's the easiest way to get an OK. If you still need help after you've called your doctor, then call 1-800-633-9156. We may ask you questions about your health problems. If we need more information, we'll try to call your doctor. We'll decide if you have an OK to get this drug within 3 business days. (Business days don't include weekends or holidays.) If you get an OK or a different prescription, we'll send you a letter. It will say that you'll get the drug your doctor prescribed. You'll have to go back to the drug store to pick it up. What if you don't get an OK? Then, we'll send you a different letter that says why we turned you down. It will also say how to appeal if you think we made a mistake. We do not allow unfair treatment in TennCare. No one is treated in a different way because of race, color, birthplace, language, sex, age, or disability. Do you think you've been treated unfairly? Do you have more questions or need more help? If you think you've been treated unfairly, call the Family Assistance Service Center for free at 1-866-311.4287. Dev: 01Dec05

Prior Authorization Required Form (Revised 8/9/06)
